

Des Moines Concrete Lift worksheet

Use one sheet for the same job. Keep exclusions beside the price.

1. Gather the details

- ☐ Property ZIP and private slab or public-sidewalk location
- ☐ Wide views of the settled area and affected joints
- ☐ Approximate panel dimensions and height differences from a safe position
- ☐ Standing water, drainage direction and previous repairs
- ☐ Vehicle access, nearby structures and dates the area can be closed

2. Compare two written proposals

Question to confirm	Quote A / business	Quote B / business
Suitability Which panels are suitable for lifting, and why?		
Boundary Which panels and adjacent transitions are included?		
Result What elevation and drainage result is agreed?		
Finishing Are holes, joints and cracks addressed?		
Terms What limitations and return-to-use terms apply?		
Total + exclusions / extra charges
